EXPERIENCE

August 2011 to Present

The Cleveland Plain Dealer

-Flash Animator

-It is my job to design flash leaderboards for the Plain Dealer's clientele to be used on Cleveland.com which are visually appealing and also do not exceed 40kb.

-Software Used: Adobe Flash, Adobe Illustrator, Adobe Photoshop, Adobe Fireworks

June 2009 to September 2011

KSK Visual Ingenuity

-Preflight specialist (Contract consultant)

-It was my job to receive incoming orders and prepare them for large scale print (preflight). I could do something as simple as resizing an image to something as involved as digital photo retouching, poster designs, and sign layouts depending on the project.

Software Used: Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Quarkxpress

March 2009 to May 2009

Ackofin Inc.

-Graphic Designer/Web designer (Freelance)

-I designed and built the website for this medical supply company as well as designed their logo. After creating 6 options for a logo, one was selected and placed on the final site.

Software Used: Adobe Photoshop, Adobe Illustrator, Adobe Dreamweaver

October 2008 to September 2010

W & K Stoner & Associates, Inc.

-Graphic Designer/Web designer (Freelance)

-I developed both the website and the logo for this motorcycle swap meet company and continually updated it with new content when I got new articles from my client. After about a year I completely re-designed the site utilizing more advanced web and design techniques I had learned before the owner took over responsibilities for maintaining and updating it in September 2010.

Software Used: Adobe Photoshop, Adobe Illustrator, Adobe Dreamweaver

EDUCATION

The Art Institute of Pittsburgh | Bachelor of Science in Media Arts & Animation
Pittsburgh, PA 2004-2007
